NEWS RELEASE

FOR IMMEDIATE RELEASE:

Ferndale, Michigan February 10, 2020 - Now is a great time to invest in profitable grinding equipment rather than pay taxes. In many cases, your company can write off the full purchase price of equipment this year saving you a significant amount of federal and/or state taxes. You could save enough in taxes to reduce your cost of purchasing equipment by approximately 30%! The Section 179 Federal Tax Deduction allows a company to deduct the first \$1,040,000 of equipment placed in service in 2020 assuming you do not acquire more than \$2,590,000 in total equipment purchases during 2020. These tax benefits also apply to financing arrangements and leases with \$1 buyouts. Unison has established relationships with leasing companies who are willing to assist companies with financing. Please consult your tax professional for guidance in this matter.

**9 Axis Tool & Cutter Grinders
and Punch Grinders**
